Question

10 Marks

Suppose that you carried out a small survey in your neighborhood (four to five families). Your presumed interview data revealed that almost 50% of the people got their first vaccination shot while the others are fully vaccinated and preparing to get the booster shot. Prepare an Introduction section of a report keeping in view the following sections.

1. Give your report a title for example “ **Controlling COVID-19 with Vaccination: A Report on Gathering Facts and Statistics**” **2 Marks**
2. Under the main heading of Introduction, give four sub headings as follows
 - a. **Purpose** **2 Marks**
Providing data related to the number of people who got vaccinated
 - b. **Background** **2 Marks**
Impact of covid-19 on different sectors with the increasing number of variants
 - c. **Method of investigation** **2 Marks**
Talk about the presupposed interviews conducted in your neighborhood
 - d. **Scope** **2 Marks**
You can mention here that the study was limited to the data collected from your own residential area. In other words it cannot be generalized over the entire city.

Good luck!
